 PCN19

The ultimate customized LED indoor/outdoor clock for the gameroom, garage, backyard deck/ patio and grilling entertainment areas. This clock features a rubber seal making it water resistant. The clock face is digitally printed-using UV resistant inks. Long lasting LED lights are located at the 12-3-6 and 9 o'clock positions. The clock body features ABS Black plastic. The real glass lens enhances the quality and appearance.

A precise quartz clock movement maintains accurate time. The LED lights are controlled by a light sensor which senses ambient light which then turns on or off during the night/day light. The molded plastic back includes a keyhole hanging opening.

Product Features:

- Battery powered quartz movement - no need to plug in (Battery not included).
- LED Lights for long lasting illumination at night.
- Senses the ambient light & automatically turns on/off the lights during the day/night.
- 14" Diameter x 2-3/4" deep clock body.
- Rubber seal (Completely water resistant)
- Glass Lens covering face.
- ABS black plastic - (UV resistant casing).
- Aluminum hands.

Specifications:

14" Diameter x 3-1/8" Deep.

Weight: 5 lbs.
